HE TRIED TO ESCAPE.

Cervera Made a Bold Dash Out of His Bottle.

COST HIM HIS ENTIRE FLEET

Hundreds of the Spanish Marines Were Killed.

ALL THE OTHERS CAPTURED.

The Spanish Admiral Is Himself a Prisoner Now.

ONLY ONE AMERICAN WAS KILLED

None of the United States Vessels Were Injured, Notwithstanding the Dops Fought Desperately In Their Effort to Get Away.

Ten Miles West of the Harbor of Santiago de Cuba, July 5.—Admiral Cervera's fleet, consisting of the armored cruisers Cristobal Colon, Almirante Oquenda, Infanta Maria Teresa and Vizcaya and two torpedo-boat destroyers, the Furor and the Pluton, which had been held in the harbor of Santiago de Cuba for six weeks past by the combined squadrons of Rear Admiral Sampson and Commodore Schley, lies at the bottom of the Caribbean sea, off the southern coast of Cuba.

The Spanish admiral is a prisoner on the auxiliary gunboat Gloucester (formerly Mr. Pierpont Morgan's yacht Corsair), and 1,000 to 1,500 other Spanish officers and sailors—all who escaped the frightful carnage caused by the shells from the American warships—are held as prisoners of war by the United States navy.

The American victory is complete and the American vessels were practically untouched and only one man was killed, though the ships were subjected to the heavy fire of the Spaniards all the time the battle lasted.

In the face of overwhelming odds, with nothing before him but inevitable destruction or surrender if he remained any longer in the trap in which the American fleet held him, Cervera made a bold dash from the harbor at the time the Americans least expected him to do so.

SAW HIM COME OUT.

The Americans saw him the moment he left the harbor and commenced their work of destruction immediately. For an hour or two they followed the flying Spaniards to the westward along the shore line, sending shot after shot into their blazing hulls, tearing great holes in their steel sides and covering their decks with the blood of the killed and wounded.

At no time did the Spaniards show any indication that they intended to do otherwise than fight to the last. They showed no signals to surrender even when their ships commenced to sink and the great clouds of smoke pouring from their sides showed they were on fire. But they turned their heads towards the shore, less than a mile away and ran them on the beach and rocks, where their destruction was soon completed.

The officers and men on board then escaped to the shore as well as they could, with the assistance of boats sent from the American men-of-war, and then threw themselves upon the mercy of their captors, who not only extended to them the gracious hand of American chivalry, but sent them a guard to protect them from the murderous bands of Cuban soldiers hiding in the bush on the hillside, eager to rush down and attack the unarmed, defeated, but valorous foe.

One or another of the Spanish ships became the victims of the awful rain of shells which the American battleships, cruisers and gunboats poured upon them, and two hours after the first of the fleet had started out of Santiago harbor, three cruisers and two torpedo boat destroyers were lying on the shore 10 to 15 miles west of Morro castle, pounding to pieces, smoke and flame pouring from every part of them.

HEAVY EXPLOSIONS OCCURRED. Heavy explosions of ammunition occurred every few minutes, sending curls of dense white smoke a hundred feet in the air and causing a shower of broken iron and steel to fall in the water on every side.

Admiral Cervera escaped to the shore in a boat, sent by the Gloucester to the assistance of the Infanta Maria Teresa, and as soon as he touched the beach he surrendered himself and his command to Lieutenant Morton and asked to be

taken on board the Gloucester, which was the only American vessel near him at the time, with several of his officers, including the captain of the flagship.

The Spanish admiral, who was wounded in the arm, was taken to the Gloucester and was received at her gangway by her commander, Lieutenant Commander Richard Walcott, who placed his cabin at the disposal of the Spanish officers.

The Cristobal Colon was the faster of the Spanish ships and she soon obtained a lead over the others after leaving the harbor and escaped the effect of the shots which destroyed the other vessels.

She steamed away at great speed with the Oregon, New York, Brooklyn and several other ships in pursuit, all of them firing at her constantly and receiving fire themselves from her after guns. She was beached about 15 miles from Santiago.

There is no means of telling now what the Spanish loss was, but it is believed to have been very heavy, as the prisoners in custody report their decks strewn with dead and wounded in great numbers, and besides there is a statement that many bodies could be seen fastened to the pieces of wreckage floating in the sea after the fight was over.

There can be no doubt that Admiral Cervera's plan to escape from Santiago harbor was entirely unexpected by Admiral Sampson, and the best evidence of this is the fact that when the Spanish vessels were seen coming out of the harbor, the flagship New York was seven miles away steaming to the eastward toward Juragua, the military base, nine miles east of Morro.

DEMANDS A SURRENDER.

Text of Correspondence Between Shafter and Torral.

Washington, July 5.—Following is the correspondence of General Shafter demanding the surrender of Santiago:

To the Commanding General of the Spanish forces, Santiago: I shall be obliged, unless you surrender, to shell Santiago de Cuba. Please inform the citizens of foreign countries and all women and children that they should leave the city before 10 o'clock, Monday morning. W. R. Shafter.

Following is the Spanish reply, which Colonel Dorst returned at 6:30 p. m.:

"His Excellency, the general commanding the forces of the United States—I have the honor to reply to your communication written at 8:30 a. m. and received at 1 p. m., demanding the surrender of this city; on the contrary case announcing to me that you will bombard this city and that I advise the foreign women and children that they must leave the city before 10 p. m. Monday. It is my duty to say to you that this city will not surrender, and that I will inform the foreign consuls and inhabitants of the contents of your message. JOSE TORRAL."

The following is my reply: "In consideration of the request of the consul and officers in your city for delay in carrying out my intention to fire on the city, and in the interest of the poor women and children, who will suffer very greatly by their hasty and forced departure from the city, I have the honor to announce that I will delay such action solely in their interest until noon of July 5, providing during the interval your forces make no demonstration whatever upon those of my own. I am with great respect, "W. R. SHAFTER."

Played a Hot Time.

Washington, July 5.—The war department has posted the following from General Shafter, dated Santiago, Cuba, July 4: "When the news of the disaster to the Spanish fleet reached the front, which was during the truce, the regimental band that had managed to keep its instruments on the line played 'The Star Spangled Banner,' and 'There'll Be a Hot Time in the Old Town Tonight.'"

Men are cheering from one end of the line to the other. Officers and men without even the shelter of tents have been soaking for five days in the afternoon rains, but all are happy."

An Ohio Man Wounded.

Cleveland, July 5.—Among the United States soldiers who were wounded in the battle before Santiago Friday was Lieutenant Oren B. Meyer, a son of General Ed S. Meyer of this city. General Meyer received a telegram from the war department stating that his son had been wounded in the hip. The general left for Washington at once to make arrangements to have the lieutenant brought back to the United States. Lieutenant Meyer was an officer of the Third cavalry and was graduated from West Point in 1890. General Meyer is a retired officer.

Expected, Santiago to Fall.

London, July 5.—A dispatch from Madrid quotes Premier Sagasta as saying, in an interview, that he thought the Americans would "get the reinforcements, they had required, which

would enable them to take Santiago." The premier is said to have added: "Though the American warships may destroy our squadron in the harbor, yet we will pursue the war. There are in Cuba 100,000 men ready to die in its defense, but they will not yield."

Pando Is Not at Santiago.

Washington, July 5.—General Miles has received a dispatch from Lieutenant Colonel Wagner of the bureau of military information now at Santiago, in which he states that General Pando has not formed a junction with the forces of General Linare, Pando, with 5,000 men, is still some distance from Santiago. General Garcia, with 3,000 Cubans, is between Pando and Santiago, and is successfully resisting his efforts to reach that city.

Prominent Club Man.

Denver, July 5.—Second Lieutenant Horace T. Devereaux, reported wounded among Roosevelt's rough riders at Santiago, is a prominent club man of Colorado Springs and Denver. He enlisted with the rough riders as a private, later becoming a sergeant. Two weeks ago he was commissioned a second lieutenant upon the recommendation of Lieutenant Colonel Roosevelt.

Shafter's Position.

Washington, July 5.—The war department has given out the following from General Shafter, dated near Santiago, July 3: "My lines completely surrounded the town from bay on north of city to a point on San Juan river on the south. The enemy holds from west bend of the San Juan river at its mouth up the railroad to the city. General Pando, I find, is some distance away, and will not get into Santiago."

Mysterious Disappearance.

San Francisco, July 5.—Stewart Frazier of company H, Tennessee volunteers, left camp on a brief leave of absence on Friday, and has not been heard from since. The police were notified to look out for him. He had a considerable sum of money with him, and as he is of temperate habits, friends fear some misfortune has befallen him.

To Leave Chickamauga.

Atlanta, July 5.—The Atlantic and Atlantic and the Southern railways have received orders to transport six regiments of infantry from Chickamauga to Charleston, S. C. The first train is scheduled to leave from the nearest station at Camp Thomas at 7 a. m.

Can Get Horses.

Washington, July 5.—Adjutant General Corbin has received the following from General Anderson, who commanded the first military expedition to the Philippines: "Cavalry, artillery and riding horses desirable; can get limited number of draught animals here."

Flags in the Pulpit.

London, July 5.—British and American flags hung from the pulpit at St. Peter's meeting house Sunday, and Independence day was celebrated with more than Yankee energy 24 hours ahead of time in the historic stronghold of English nonconformity.

Prominent Spaniards Killed.

Madrid, July 5.—At the conclusion of the cabinet meeting the ministers stated that official confirmation had been received that General Vara de Rey and two of General Linare's aides-de-camp were among the killed in the third attack of the Americans on El Caney.

Captured Some Soldiers.

Manilla, July 5.—In addition to the Spanish governor of the Ladrone, the Charleston brought 50 soldiers as prisoners of war to Cavite.

The Chicago Strike.

Indianapolis, July 5.—President Prescott of the International Typographical Union went to Chicago to investigate the strike in that city. The stereotypers, while they have a union of their own, are under the jurisdiction of the International Typographical Union. It is stated at international headquarters that the strike is unauthorized, and that Prescott may find it necessary under existing agreements to furnish Chicago papers with stereotypers.

Business Block Burned.

McPherson, Kan., July 5.—One of the most destructive fires that ever visited this city occurred when the First National Bank building, in which was located the Citizens' State bank, J. E. Laderer & Company, clothiers; Broughton's music store; Larimer's tailoring establishment, and nearly all the principal real estate and loan offices in the city burned. The loss is estimated at \$75,000; insurance, \$30,000.

Vallejo, Cal., July 5.—The United States cruiser Philadelphia will go into commission in a few days. She is alongside the quay at Mare island, and her crew will be placed on board as soon as an order is received from Washington. Marines and sailors at the island are drilled constantly in embarking and debarking.

REVOLUTION IN URUGUAY.

Trouble Was Started by a Regiment of Light Artillery.

Montevideo, Uruguay, July 5.—A revolution has broken out in the capital. The Fourth regiment of light artillery, headed by General Estevan, has mutined.

Firing began early in the morning and continued as this dispatch is sent close to the city. The government has declared the city in a state of siege and has called out the national guard.

A detachment of British blue jackets has been landed here to defend the British consulate. The revolution is supposed to be the result of intrigues of the Herreralta party, composed of the followers of Dr. Miguel Herraray Obes, former president of the republic of Uruguay and minister of the interior of justice in the Borda cabinet.

At Omaha Exposition. Omaha, July 5.—The biggest Fourth of July celebration ever observed in the west is in progress on the exposition grounds here. The crowds were greatly enthused by the glorious news from Santiago and added the celebration of Shafter's and Sampson's victories to the original object of the day.

The parade was one of the unique features, being made up of the midway denizens, and every nation under the sun but Spain was represented. One hundred thousand people were on the grounds when the parade moved.

The Weather.

For West Virginia—Fair; warmer; northerly winds, becoming variable. For Ohio—Fair; warmer; light northerly winds, becoming southerly. For Indiana—Fair; warmer; northerly winds, becoming southerly.

OFFICIAL STATEMENT.

Spaniards Can Not Believe the Awful Truth.

IT DOES SEEM INCREDIBLE.

However, the Cape Verde Fleet Is a Thing of the Past, and the "Monstrable" Dons Are Practically Minus a Navy.

Madrid, July 5.—The following official statement has been issued: "The semaphore from Morro castle to Santiago says the Spanish squadron, after a cannonade with the Americans, showed no signs of injury, therefore the American news of the rout of Admiral Cervera must be utterly untrue. Moreover, Admiral Cervera's squadron is faster than Admiral Sampson's."

Pando Enters Santiago.

Santiago de Cuba, July 5.—General Pando with 5,000 reinforcements reached Santiago at noon Sunday, General Calixto Garcia refusing to make an effort to stop him, saying that the Spanish force was too large for him to engage.

He May Be Killed.

Manilla, July 5.—Captain Concha, late commander of the Spanish third-class unprotected cruiser Don Antonio de Ulloa, which was sunk at the battle of Cavite, commands at Malate fort, with 400 sailors. A thousand mixed troops are camped about half a mile south. The insurgents apparently fear to leave cover.

Manilla Probably Taken.

Hongkong, July 5.—The United States dispatch boat Zafiro, from Cavite, with the report that the American troops arrived on June 30, reported also that Admiral Dewey, when the Zafiro left on July 1, was planning to attack Manilla with the fleet and troops on July 4.

Fearing Their Own People.

Manilla, July 5.—The gunboat Hugh McCulloch captured the Spanish gunboat Leyte. Admiral Dewey offered to parole the crew, but they declined because they feared to be court-martialed and shot.

"Crazy Bill's" Claim.

Shanghai, July 5.—It is reported here on good authority that Germany claims to have had arranged a concession for a port in the Philippine islands ante-dating the present situation there.

A Bridge Collapses.

Shelby, O., July 5.—A bridge crossing the Mohican river here fell Monday afternoon with 1,000 people. Four were killed outright and a hundred injured, some of them seriously. A public wedding was being celebrated on the bridge. Just as the ceremony had been completed the bridge went down with a crash, precipitating the people a distance of 18 feet. Those who were killed outright were: Cyrus Kuhan of Shelby, 50; Mrs. Louisa Monahan of Edison, 55; Ada Bloodhart of Shelby, 12; Frank Keckler of Shelby, 12.

No More Territory.

Washington, July 5.—The senate was the only house of congress in session. Mr. Allen (Neb.) opposed the Hawaiian resolution. He laid down the proposition that annexation involved the abandonment of the Monroe doctrine and the traditional foreign policy of this country. He declared that Porto Rico, Cuba and the Philippines should be made independent, Spain would pay the entire cost of the war, and the should not increase any of this government's territorial possessions.

Big Attendance Expected.

Indianapolis, July 5.—An idea of the immense throngs that are to be in the city next month, in attendance on the Knights of Pythias encampment, is to be found in the fact that such far away states as California, Texas and Maine have decided to send large delegations. The "Lone Star" state wants the encampment two years from now, while California has a candidate for vice supreme chancellor. There is always a good deal of "politics" in the biennial Knights of Pythias gathering.

Excursion Steamer Sunk.

Beverly, Mass., July 5.—The steamer Surf City, while on her trip over from Salem Willows, was struck by a squall and sunk about a quarter mile off her wharf here. There were from 100 to 150 persons on board at the time, and a large number were rescued by boats from the shore. It is believed that between 20 and 30 went down with the boat.

Paris, July 5.—The Temps says: "The capture of Santiago de Cuba is an irreparable loss for the Spaniards." The paper concludes its article by saying: "Spain has not an hour to lose in negotiating peace."

EVENING BULLETIN. DAILY, EXCEPT SUNDAY. **ROSSER & McARTHUR,** Proprietors. SUBSCRIPTION PRICES OF DAILY. One month.....\$1.25 Three months.....\$3.00 Six months.....\$5.50 One year.....\$10.00 TUESDAY, JULY 5, 1898.

This has been the banner year for the collection of internal revenue. At no time since the war has there been so much collected. The amount collected during the last day of the month of June was \$874,129, as compared with \$486,424 for the same day last year, and none of the war taxes is included in this. The aggregate for the month is more than \$3,000,000 in excess of the month of June last year.

A SUBSCRIBER wants to know who pays the stamp tax on a telegraph message: Legally the telegraph company should pay it. The tax was intended to be a tax on the receipts of a virtual monopoly. The telegraph company receipts have been vastly increased from every source by the war, but it does not intend to pay the tax if it can impose it on its patrons, so it has announced that every telegram must have the stamp attached before it will be sent. The courts will probably have to settle this controversy.

The celebration at the fair grounds yesterday was not a success from several standpoints. There was nothing like the crowd in attendance that ought to have been there to make the affair a "go." Then the balloon ascension was a fizzle from some cause, and this was no little disappointment to those who were there. No doubt the rain kept many from going out, and it is certain that the excitement attending the receipt of late war news held many down town. Then there were attractions elsewhere, and it seems that nothing the management could have done would have gotten together a real large crowd. But it was a glorious Fourth, nevertheless, and the news of Sampson's magnificent victory and the capture of Cervera and the destruction of his fleet amply repaid anybody for the gloom they felt at more discouraging reports earlier in the day.

GETTING QUITE WARM.

The Views of a Prominent Politician on the Congressional Contest in This District.

[Cincinnati Enquirer.]

Mr. M. F. Conley, editor of the Big Sandy News, Louisa, Lawrence County, Ky., in the very close Ninth Congressional District, now represented by Judge Pugh, a Republican, who pulled through by 500 in the Presidential swim, is at the Palace with the Kentucky Press Association and said of politics over his way: "Colonel Waller Sharp, of Bath County, who is not yet announced as a candidate for Democratic nomination for Congress, was in our county a few days since sounding the public pulse, and met with encouragement. If he enters the race the contest will be between him, Mr. Kehoe, of Mason, and Williams, of Boyd. While Colonel Sharp was in our city Major Burchett, ex-United States Marshal of Kentucky, and one of the most popular and influential Republicans in our section of the State, told him that if Pugh was renominated by the Republicans and he (Sharp) was nominated by the Democrats he (Burchett) would support the Democratic nominee. The Republican Mayor of our city gave Colonel Sharp the same assurance. This, in as close a district as ours, would be sufficient to defeat Pugh, whom we regard as our meat this time, anyhow, if renominated, aside from this Republican disaffection. Major Burchett was an applicant for the Peruvian and later for the Brazilian Mission, but Pugh expended his full influence in getting the solicitorship of the Internal Revenue Department for his father-in-law, ex-Congressman Morgan Thomas, and offices for other members or connections of his family, including a place for his son-in-law at \$2,500. A list is being prepared of the number of relatives Pugh has had placed in office. Mr. William Cox, of Maysville, is Pugh's opponent for the nomination, but we Democrats are anxious for Pugh to be put up again."

The balloonist who made the ascension at Ripley yesterday is reported to have fallen in the river and drowned.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on J. James Wood, druggist, and get a trial bottle free. Regular size 50 cents and \$1. Every bottle guaranteed, or price refunded.

THE CITY DADS

Celebrate the Fourth By Holding a Business Meeting Last Evening.

Council Elects Mr. Lee Cox to the Clerkship Vacancy, Caused by the Resignation of His Brother.

All members of the City Council were present at the meeting last evening with the exception of Mr. Pearce. Mr. Dersch was absent at roll call, but afterwards came in.

The Police Judge, Chief of Police, Treasurer and Wharfmaster made their monthly reports which were read and filed.

Claims and accounts amounting to \$310.73 were allowed and ordered paid.

J. R. Carpenter, to erect a frame one-story dwelling house on corner of Morrison alley, between Bank and Commerce, Fifth ward.

John Hays and wife, frame cottage on East Fifth, Fourth ward.

A protest having been filed against the petition of M. C. Hutchison to erect a one-story metal roof building on Second street, Fifth ward, on motion the matter was referred to the Internal Improvement Committee, with instructions to report at next meeting. Mr. Frost protested against deferring action, but the motion carried.

Ex-Chief of Police Ort reported that he had collected all the unpaid fines and costs with the exception of two bonds for small amounts, and as they were taken under extenuating circumstances, he was exonerated from the payment of same.

On motion of Mr. Parker the Mayor was requested to ask the Water Company to lay mains on Forest avenue when a sufficient number of subscribers were secured to justify the company incurring the expense.

Property owners were given further time to construct suitable sidewalks in Fifth ward. [Nothing was said about the first, however.]

The license of J. J. Wood was referred to J. J. Wood & Son.

H. W. Rasp, J. T. Kackley & Co., The F. H. Traxel Company, Chas. Wetzel, McClanahan & Shea, the Keith-Schroeder Harness Company and Thos. Blanchard were given permission to store gasoline on their premises, not exceeding ten gallons, on compliance with the law governing the matter.

The Neptune Fire Company filed a list of thirty members with Council.

Mayor Stallcup stated that he had found a lot of old water bonds and coupons that the records showed were ordered destroyed in presence of Council three years ago. The records showed that they had been reported destroyed, but it was evident the order had not been carried out. Nobody seemed to know anything about the matter, and as they were an elephant on the Mayor's hands, Council again appointed a committee to destroy same which order this time was faithfully executed.

J. B. Durrett resigned as Wood and Coal Inspector and Walter Wormald was elected to fill the vacancy.

City Clerk Cox tendered his resignation by letter with the request that his brother, Mr. Lee Cox, be elected to fill his place. The following were placed in nomination: Lee Cox, Henry Wadsworth, J. L. Daulton, Byron Rudy, J. K. Lloyd, Charles Broeze. Before a ballot was taken Mr. Dieterich, a member from the Sixth, treated Council to a stirring and patriotic speech, urging Council to elect Mr. Cox. The speaker seemed wound up to the highest tension, and threatened to extend the session along toward midnight, and as there was a suspicion of tears in some of the members' eyes, and it was already late, Council proceeded with the election. Mr. Cox was elected on the first ballot, receiving eight votes and Mr. Daulton three.

An adjournment was then ordered until to-night at 7 o'clock, when Council will have some important business to transact.

The Commissioner of Internal Revenue has decided that railroad companies making charge for excess baggage of passengers shall be required to affix a one cent stamp to bills of lading covering such charges, in the same manner as express companies are required to stamp their bills of lading.

LEXINGTON dealers have sold to the army officers about 600 head of cavalry and artillery horses, besides a large number of army mules. Kentucky has furnished a vast amount of horse stock for Uncle Sam. It is a safe estimate to place the amount paid by the government for horses in Kentucky at least a third of a million dollars.

REV. FRANCIS BROOKS DOHERTY, a well known Paulist missionary, sailed last week on the Newport for Manila at the personal request of Major General Merritt. He speaks Spanish fluently, and hopes to be of service to the United States by explaining away the false impression which is said to prevail on the islands that the American soldiers will destroy their religion and loot their places of worship.

FREMONT Park was packed last night with a large audience. Everything was new and well received. The De Forests were applauded for each and every act. They are first class in their line of business and should make a big hit the entire week. Professor Stricklyn and his dogs were a pleasing feature of the program. Teed and Allen, who have captured the town, bombarded the audience with their new German comedy act. George Edwards played the big con once more to the satisfaction of the entire audience and the Klines are still favorites.

FLAG FUND.

Let's Do the Handsome Thing For Our Soldier Boys—News From Camp Corbin.

Maysville and Mason County should join heartily in the move to present their soldier boys with a handsome flag to carry with them to Cuba, Porto Rico or any other point to which they may be ordered. And the response ought to be prompt, as the colors should be presented before the company leaves Camp Corbin.

The necessary funds could be contributed by a comparatively few citizens, but those who have the matter in charge want as many of our citizens as possible to join in the move, and so suggested 25 cents as the limit of any single subscription.

Hand in your quarters or send them to the BULLETIN office and they will be reported and turned over to the committee. The following have contributed 25 cents each:

DAY OF GREAT EVENTS

Good News Poured In From All Sides Monday.

IT WAS MOSTLY THRILLING.

The Most Sanguine Expectations Were Exceeded.

GREAT WAS THE NATION'S JOY.

Destruction of the Famous Cape de Verde Fleet Will Hasten the Departure of Watson's Squadron in Pursuit of Camara's Fleet.

Washington, July 5.—The complete annihilation of the Spanish squadron at Santiago and the capture of the Spanish admiral, Cervera, with 1,300 prisoners; the demand by General Shafter for the surrender of Santiago by 12 o'clock tomorrow noon on pain of bombardment; word from Admiral Dewey that the Ladrone Islands had been captured, that a Spanish gunboat had surrendered, that a hundred or more Spanish officers and men were taken and that our first Philippine expedition had landed—this is in part the thrilling record of such a Fourth of July as has not been known since the bells of Independence hall rang out the tidings of American freedom.

It was a day when one momentous event followed another in constant and rapid succession, each hour bringing forth some new feature more startling than what had gone before. The climax came at 1 o'clock, when amid the wildest cheering, which fairly shook the great war, state and navy building to its foundation, Admiral Sampson's dispatch announcing his glorious victory and the entire destruction of the Spanish fleet, was given to the public.

The changed naval situation will bring no abatement in the activity of the authorities here in carrying the war directly home to Spain.

There is renewed determination to get Commander Watson's eastern squadron away at the earliest moment, for the double purpose of striking a blow at the coast towns of Spain and of pursuing Admiral Camara's fleet, which has halted at the entrance of the Suez canal.

Secretary Long made the official statement that the fleet would sail at the earliest possible moment, and although he did not go into details as to its purpose, it was well understood that it will devote its attention to the Spanish coast and to Camara.

The destruction of the Spanish fleet at Santiago relieves Admiral Sampson from surveillance of this squadron, and he can readily spare the ships intended for the attack on the Spanish coast.

The release of Hobson and the other heroes of the Merrimac incident is likely to be another result of the events transpiring. It may now come about either by the surrender of the city which would include the surrender of Hobson and other American prisoners in the city, or else by the exchange of Hobson for Admiral Cervera or some other high ranking naval official.

Until now the possibility of exchanging Hobson were slight, as this government had no Spanish prisoners of high rank to offer in his place. Now, however, they have one of the foremost admirals of Spain and among the 1,300 other naval prisoners there are many officers of distinguished rank.

A dispatch from the front stating that there was likely to be some criticism because of the treatment of foreign military attaches excited much indignation among military authorities here.

It was stated by one of the highest officers in the service that the foreign gentlemen had received absolutely everything in the way of accommodation, supplies, rations, etc., given to our own officers and men.

What was most surprising was that this protest should come at a moment when our men were fighting in swamp and thicket under a blazing sun, with a thousand dead or wounded, and under the fire of an entrenched enemy.

There is every disposition here to extend the most complete courtesy to these gentlemen that is consistent with the circumstances. There is no purpose, however, to recognize them as a superior set or to give them greater attention in mounts, tents or attendance than our own officers and men receive.

Eight Ohio Goes to Cuba.
Washington, July 5.—Orders were issued for the Eighth Ohio Infantry, Colonel Charles V. Hard and Lieutenant Colonel Charles Dick, the regiment known as the "President's Own," because it comes from the immediate vicinity of President McKinley's home city of Canton, to proceed to New York and embark on the St. Paul for Santiago. The St. Paul will leave New York late Wednesday afternoon and will make a flying trip to Cuba.

Three Young Men Drowned.
Hamilton, Ont., July 5.—Three young

men, Charles Searley, Roy Sennett and Charles Williams, were drowned in the bay here during a storm. They were sailing a clinker-built yacht when it began to fill, and in endeavoring to bail it out, the tiller was left unguarded for a moment and the yacht capsized. The three men and one other named Long started to swim ashore.

GABLE BROS.
HILDESHEIM'S famous 1,000-year-old rosebush is blooming again and has sent out new shoots. For two years past it was feared that it was dying from insect parasites, but it has been saved by applications of whitewash and kerosene.

The old man who looks out at the world with clear and healthy eyes cannot help feeling great gratification at the thought that his children have inherited from him no weakness nor tendency to disease. The healthy old man is the man who has throughout his life kept his digestion good and his blood pure. Not one in a thousand does do it. Germs go through the healthy body without effect. Let them once find lodgment or let them find a weak spot, they will develop by the million and the blood will be full of them. Instead of giving strength to the tissues, it will force upon them insidious matter, and the man will lose flesh and the more susceptible he is to disease. Dr. Pierce's Golden Medical Discovery is the only medicine that absolutely and infallibly cures all blood diseases, and almost all diseases are blood diseases. It isn't a medicine for some one particular so-called disease. It is a medicine for the whole body. It forces out all the germs of disease, and replaces impurities with rich, red blood.

Hobson's Good Points.
[New York Tribune.]

A western paper has compiled these alleged personal facts about Hobson:
First—He was rejected by the only woman he ever loved, who married a brother officer.
Second—He was the youngest but one of his class at Annapolis.
Third—He was boycotted by his whole class.
Fourth—They called him "The Tin Saint" and "Parson Hobson."
Fifth—He graduated at the head of his class.
Sixth—He neither smokes nor drinks.
Seventh—He is devoutly religious.
Eighth—He prayed on the deck of the Merrimac.
Ninth—He is full of daring ideas.
Tenth—He is the only American who went to Paris and never went to the Moulin Rouge.
Eleventh—His motto is: "To do justly; to love mercy; to walk humbly with thy God."

A Clever Trick.

It certainly looks like it, but there is really no trick about it. Anybody can try it who has lame back and weak kidneys, malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to liver and kidneys, is a blood purifier and nerve tonic. It cures constipation, headache, fainting spells, sleeplessness and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c, a bottle at J. Jas. Wood's drug store.

Manager Maxwell's Tribute.
[Cincinnati Enquirer.]

"I have seen a great many press excursions in my day as a hotel man," said Manager Maxwell of the Palace, "and I remarked to my wife to-day that I had never seen one that excelled, if equaled, this one in good looks, neatness and appropriateness of attire and gentle deportment. And what a bouquet of Kentucky beauties!"

"Well, you know where they came from, don't you?" replied my wife, as much as to say what else could I expect."

Safe Where Old Glory Waves.
[Exchange.]

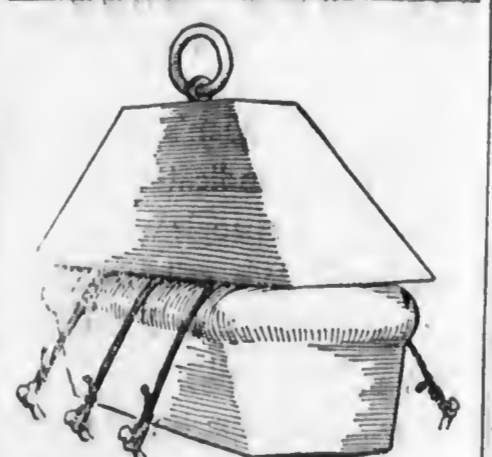

A good story is told of the British Consul at Manila, to whom a Spanish lady came shortly after the victory of Dewey, with doubts and fears and inquiries as to whether the Americans were such as described in the Captain General's proclamation. The Consul said: "Madam, honor and virtue are safer in Manila to-day than they have been for three hundred years."

GABLE BROS.

We have put guy ropes and a heavy weight on the price of every loaf of our Bread. The price is prostrated, but the Bread rises just the same. The loaf is light, as good yeast and flour will make it sweet, light and wholesome. Good Bread cheap to the people is our motto. Try it.

Strawberries!

The season is now at hand for HOME-GROWN, and as usual my house will be headquarters for the very best fruit in the market, both wholesale and retail. Also as the season advances I have arranged to have each day shipments of

CULTIVATED BLACKBERRIES, RASPBERRIES, CHERRIES, PEACHES, ETC.

The fruit will be placed on the market here on the same day it is picked, and buyers can always depend on getting the very freshest and best stock the country affords. Remember the Strawberry season only lasts three weeks, so don't put off buying until too late.]

MONDAY, JULY 4, at 10 a. m., the following

privileges will be let to the best bidders: Hotel, Confectionery, Stables, Baggage Room and Barber Shop. The board reserves the right to reject any or all bids.

The meetings on these beautiful and much improved grounds will be held beginning July 28th and closing August 18th. Eminent divines will be present. Rev. W. B. Collins, D. D., of Louisville, Ky.; Rev. E. O. Buxton, D. D., of Avondale, O.; Rev. C. W. Barnes, D. D., of Wyoming, O., and the ministers of the Covington and Ashland districts are expected to be present. The singing will be in charge of Prof. Crabbe, of Ashland, assisted by a splendid choir, which is an assurance that the music will be all that could be desired. A splendid addition has been made to the hotel, giving ample accommodation to all. The promenade grounds have been extended, a new stable built and many other improvements made. The grounds are beautiful, and, best of all, there is an abundance of pure water—two large cisterns, three wells, one of which is 150 feet deep, the water of which we have had analyzed, and it contains the following medicinal properties: Total solids, 3.6 to the liter; soluble salts, 3.16 to the liter; consisting of chlorides and sulphates of magnesium, sodium and potassium; insoluble salts, 0.44 to the liter; consisting of calcium carbonates with traces of iron.

The meetings will be in charge of Revs. G. R. Frenger and J. G. Dover, Presiding Elders of the Covington and Ashland Districts.
